

Haneya® 4 Robotic Move to S/4 HANA, 2022 / 2023

S/4 HANA Move

Agenda

❖ Corporate Overview

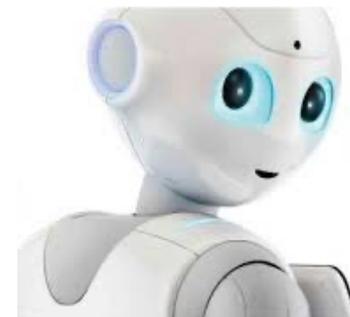

❖ S/4 HANA Move Challenges

❖ HANEYA® 4 S/4 HANA Move

❖ HANEYA® 4 Solution

- Custom Code Remediation
- Security Roles Cleansing & Update
- Data Cleansing, Carve out, Remediation, Replication and Mapping
- Configuration Workbench / Cockpit
- Zero Down Time (ZDT) Conversion
- Testing Automation

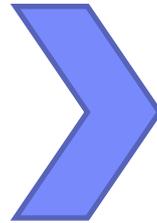

❖ Customer Success Stories

Save 40 Cents to a Dollar!

Agenda

- Company Overview
- S/4 HANA Migration Approach
- Demo
- Time lines
- Next Steps

Engagement Team

- Founder / Architect- Anji R
- Client Engagement Mgr. – Ravikiran US
- Custom Code – Krishna Challa / Vinod K
- Data Carve outs – Srinivas P
- Security / Fiori Apps. – Raghu / Srinivas P
- ZDT Thread - Alifiya Matcheswala / Lasya
- Process Thread
 - Finance: Lakshmi / Srinivas K
 - Logistics / SD/ MM: Sagar / Mahender
- Basis Thread - Raghu Gaddipati / Harsha Challa

Visionsoft is an SAP Products and Services company. It is exemplified by its SAP strength with complimentary services in Master Data, Salesforce, e-Commerce, Microsoft, GRC & Digitization

- ✓ Visionsoft has been in business for over 13+ years. Company has SAP certified Products for migrations / upgrades from ECC (X) to S/4 HANA or HANA (X) to S/4 HANA and Non-SAP to S/4 HANA, Data Management, Analytics and Commerce solutions.
- ✓ Visionsoft executes S/4 HANA Projects, AMS & related services in the SAP, Salesforce and Ecommerce space. Focus is on SAP, BI/ BOBJ, Vistex, IBP, SuccessFactors, PLM, Salesforce, e-Commerce, Digitization, S/4 HANA, GRC, Managed Services, and Management Consulting.
- ✓ Private Company with offices in Princeton, NJ, Dover, NH, Ashburn, VA, Toronto, CA and globally in India (Ahmedabad, Hyderabad, Pune and Bangalore), Dubai, UAE, Reading, UK, and Latin America
- ✓ Company Size : 200 + Strong Team
- ✓ SAP Gold Partner in Service, Build and Re-Sell, Salesforce Implementation Partner, Microsoft Powerapps Partner, and Oracle Gold Partner.
- ✓ Ranked among top 50 most admired companies in 2018 by Silicon Review
- ✓ Top 10 SAP Solution Providers by CIO Outlook and Top100 Tech Companies by Silicon India
- ✓ Top 5 Inspire Stories by Inspire Zones - VisionSoft Inc.: All-in-one Migration to SAP S/4 HANA
- ✓ Best Data Cloud Service provider

Visionsoft Competency (COE) & Offshore Delivery Centers

Provide technical solution support for various Applications, Technology/ Solutions Development, Offshore and Onsite client delivery

Toronto, Canada

Area

Role of the CoE & Delivery Center

Enablement

- Deliver the client projects
- Provide technical content for client enablement
- Adapt and promote Visionsoft technology in SAP, Salesforce & Oracle environments
- Develop, implement and promote Visionsoft technology solutions with Salesforce, SAP and Oracle

Technology

- Influence Salesforce, SAP and Oracle development to adopt new Visionsoft technologies
- Assess new SAP, Salesforce, and Oracle technologies and the impact on Visionsoft platforms
- Lead Visionsoft/SAP/Salesforce Co-Innovation projects

Solution sizing

- Perform and support sizing tests and benchmarks
- Develop and update solution sizing guidelines
- Train & support our team in various technologies solution sizing
- Develop and maintain sizing tools

Customer focus

- Organize and participate in customer briefings and presentations
- Consult Visionsoft competency teams in solution selling
- Support complex configurations (first-of-a-kind, pilot, ramp-up)
- Participate in key SAP and Salesforce events such as FKOM, TechEd & Dreamforce with technical demos and presentations

Training

- Develop solution education for client teams
- Support Project team through Q&A: Wiki & Others
- Help with escalations

Princeton, Ashburn, Dover, Chicago, USA

Reading, UK

Dubai, UAE

Hyderabad, Pune, BLR & AHD, India

We are an authorized SAP® S/4 HANA, Data Management, Analytics, GRC & SuccessFactors Services Implementer

“Automates S/4 HANA Migration, Cutting Migrations Costs In Half!”

High Quality Data Management, Data Archiving/Carve Outs & Data Governance @ 1/3 of the Cost

Global Trade Services (GTS)

Integrated business planning (IBP)

SAP SuccessFactors 

Leading provider of Salesforce solution delivery, Managed services and Support @ 1/3 of the Cost

SPEED TO DELIVERY @ 1/3 OF THE COST

VSCommerce™ Powered by SAP Hybris & Digital Commerce for web ordering & omni channel solutions

HANELytics®

Big Data Computing and Drives Predictive Insights of your Business in Real Time @ 50% Storage Costs

Digitization of an Enterprise, Mobile computing, PowerApps and shifting people from sheer transactions to building Intelligent Enterprise with our Microsoft Solutions

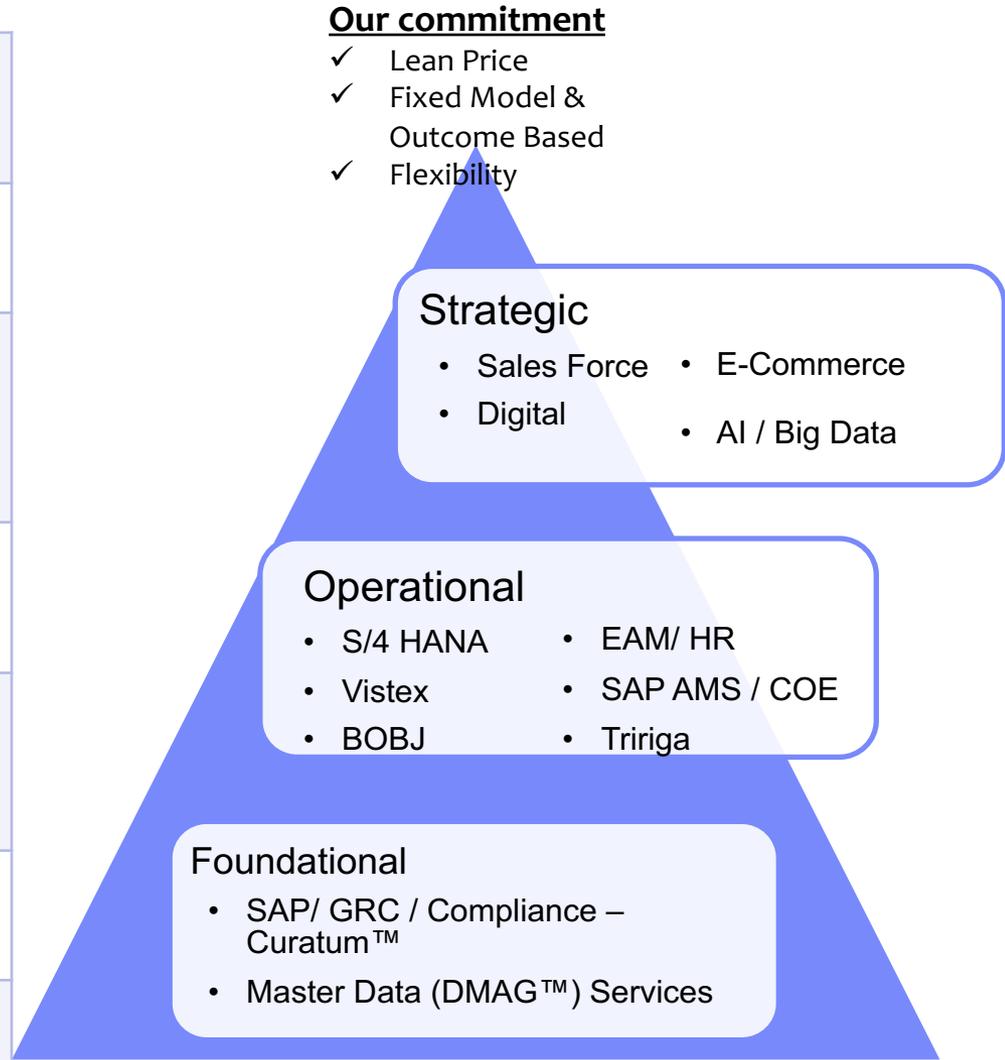

Visionsoft an SAP Products and Services company has been in the business for 12+ years with focus on SAP, S/4 HANA, Vistex, Salesforce, e-Commerce, GRC, Managed Services, and Consulting.

Solution Offerings	SAP Services, Vistex, Salesforce, E-Commerce (Hybris), GRC/ Compliance Mgmt. Solutions, Master Data Services, Consulting & IT Managed Services
Domain	Pharma, CPG, Retail, Food , Distribution, Manufacturing, Healthcare, & Lifesciences and Industrial
Key Clients	J&J, BMS, St. Gobain, Terumo Medical, Dangote, RAI, Macmillan, PCF(Publishers Circulation Fulfillment), WCS, Walmart, CommScope, FreshDirect, Eco Store Retail, Hetero Drugs, Hetero Healthcare, Essar, Srilankan Insurance, Morton Salt, & Ethicon
Certifications	Minority Business Enterprise, SAP Gold Partner, Oracle Gold Partner and Salesforce Partner, and ranked among top 50 Tech companies and top 10 SAP solution providers
Reach	North America, Europe, and Asia. Offices in Princeton, NJ; Ashburn, VA; Dover, NH; Toronto, CA; Hyderabad, India; Pune, India, Bangalore and UK (Europe) and Latin America
Lineage	Founded in 2005 and 12+ years of successful experience with ~120 consultants
IT Staffing	Time & Material, Core / Flex Project Staffing, Team Services

Our commitment

- ✓ Lean Price
- ✓ Fixed Model & Outcome Based
- ✓ Flexibility

SAP Certified products

Products

Product Description

1 HANEYA®

HANEYA is a key Robot that automates process, code remediation, and migration from ECC (x) to S/4 & S4(x) to S4 1809 HANA migration – Cuts the effort by HALF (40-50%) & S/4 Migration cost in HALF!

2 DMAG™

DMAG tool automates the data cleansing, data dialysis and data migration solution and make the data business ready. It also will help with the Data Audits, Data Transformation, mapping, verification, auto validations, data retention & archiving..

3 HANELYTICS®

HANELYTICS captures data from various sources and drives action through insights to improve your business operations: Revenue, Margins & Operating Expenses. HANElytics brings blend of HADOOP and HANA that will provide real time analytics @1/2 storage cost

4 VSoft Hybris™

VSoft Hybris is a rapid deployment solution which is designed for Web commerce for various customer types. An eCommerce platform for Web Ordering, Channel Mgmt., Pricing, ASNs, Quotes and Payments.

5 Curatum™

VSoft Curatum Software is a pre- packaged solution which is designed to provide comprehensive IT Governance, Risk and Compliance framework for clients to automate and accelerate the SAP GRC 10.1 implementation and migration projects.

Our industry verticals span across Pharma, Wholesale, CPG, Distribution, Insurance, Industrial Manufacturing along with Media and Hi-tech industries

CLIENTS Pharma, CPG, Retail, Food, Distribution, Manufacturing, Hi-Tech, Industrial & Media

Visionsoft and SAP Partnership – Gold Partner

“Visionsoft is SAP’s partner globally. They continue to be a persistent leader in SAP Solutions, and I am confident they would be a great partner for our clients.”

1. Services / Implementation Partnership- Services
2. Application Development Partnership – Build
3. VAR (Reseller Partner) Open ECO Partnership

1. Casey Ryan – Services PSA
2. Madhur Avasti – Build PSA
3. Bob Vass - Reseller Open Eco PSA

A history of team work for our clients...

- ✓ Joint product development and Research
- ✓ Joint custom solutions
- ✓ Joint project delivery: Architects, specialized team members, max attention, custom development
- ✓ We recommend clients to purchase **Max. Attention Services**

Our Products & Solutions

- ✓ HANEYA® – S/4 HANA Migrations (Bluefield & Brownfield)
- ✓ DMAG™ – Greenfield Migrations & Data Governance/Mgt.
- ✓ DMAG™ – Data Cleansing, Corrections and Conversions
- ✓ HANElytics – AI and Predictive Science Computing
- ✓ Vsoft – Hybris - Hybris Fast Track Solution
- ✓ Curatum - GRC 101.1 Fast Track Solution

Relationship with key SAP Executives:

1. SAP CEO / Execs
 - ✓ Christian Klein
 - ✓ Karl Farbach
2. North American SAP Development Director:
 - ✓ David Sacks
3. 3) Designated SAP AEs
 - ✓ Retail / CPG
 - ✓ NY Region
 - ✓ Mid West Region

HANEYA® - SAP Qualified Partner Package Solution

HANEYA®

Certificate SAP INTEGRATION CERTIFICATION

SAP SE hereby confirms that the ABAP interface software for the product

Haneyya 1.0

of the company

VisionSoft Consulting Inc

has been certified for integration with SAP S/4HANA 1511 via the SAP integration scenario *ABAP Add-On Deployment for SAP S/4HANA*.

This certificate confirms the technical and syntactical consistency of the Add-On in accordance with SAP certification procedures. SAP only certifies successful integration of the product with SAP solutions. Vendor is responsible for the product itself and its error-free operation.

The certification test is documented in report no. 9687 and expires May 04, 2020.

Vendor Hardware: PC x86-64
Vendor Operating System: Windows Server 2012 R2
SAP Test System: SAP S/4HANA 1511

This configuration meets the requirements for deploying Haneyya 1.0 on SAP S/4HANA.

Certified Functions:

Assign Software Component with a registered Namespace Package Add-On using SAP Add-On Assembly Kit (AAK)
Deploy using SAP Add-On Installation Tool (SAINT)
Integrate with SAP S/4HANA
SAP Solution Manager Ready functionality

Bangalore, May 04, 2017

Bangalore, December 27, 2018

SAP® Certified
Integration with SAP S/4HANA®

SAP certification focuses on technical integration with SAP solutions. Vendor is responsible for the product itself, its error-free operation, and adherence to applicable laws.

Certificate of Qualification

SAP® Qualified
Partner-Packaged Solution

SAP hereby confirms that the **packaged solution** from:
VisionSoft Consulting Inc.

Named:
HANEYA for S/4 HANA Migrations and Moves

that addresses the specific business needs of companies for the S/4HANA Conversions in North America, has been reviewed and qualified as an SAP-qualified partner-packaged solution for SAP S/4HANA®.

This solution is deployed based on a predefined scope, leveraging the use of pre-configuration, accelerators, methodologies, and tailored partner services to help customers run simple and realize a rapid time-to-value with reduced risk and a predictable outcome.

Date Issued: April 3, 2020

HANEYA Distinct capability

HANEYA Broader Capability

White Space filled by HANEYA®

Haneya® Scope, Methodology, Timeline and Resources

Below is our understanding of Migration scope from SAP ECC to S/4 HANA 2022 . This client has Finance, Supply Chain and BW in scope for conversion along with Fiori Services and Business Process Transformation

Client

- Client Name - TBC
- Industry :
- Currently on SAP ECC Ehp7 (NetWeaver 7.4)
- Landscape : Oracle Database, OS? SAP Kernel 742 ?

Project Scope

- Migration from ECC(X) to 2022 (On – Prem / Cloud)
- Modules : Finance, BPC, Human Resources Logistics – ATP, Logistics EHS , MM-IM, PLM, PM, PS, QM, Master Data, PPM, Procurement, SD, Customer Service, LE-TRA, BW and Analytics
- ECC and BW Conversion

Sizing Inputs

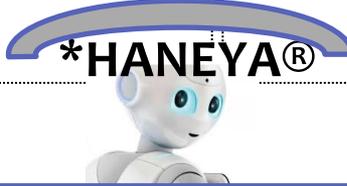

- Business Process Area – Above
- No. of Users - 4000
- SAP Database Size 3110 GB Used size on disk
- Custom Objects: 30429
- Master Data Objects - 100
- Security Roles - 1000
- BI content extractors available up to ERP 6.0 EHP8.

HANEYA® Approach

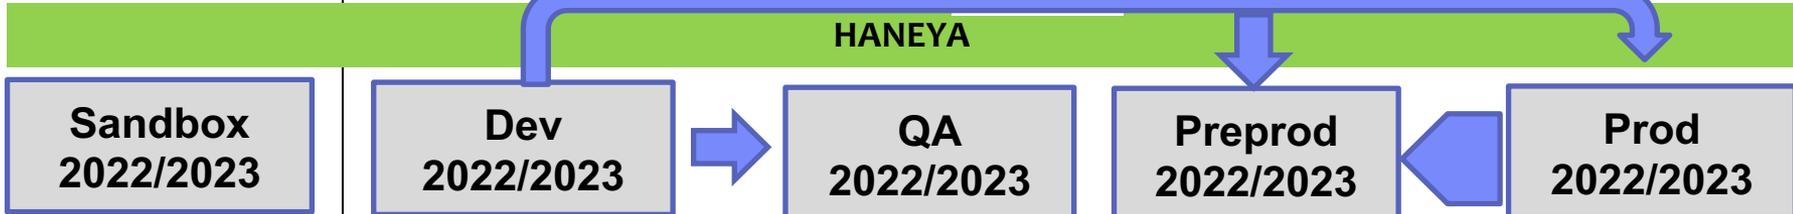

Source

- Zero Downtime
- Custom Code Remediation
- Security roles and authorization
- Automation
- Process Remediation
- Data Mapping
- Test Scripts Execution

Target

- ✓ Set up S/4 HANA Landscape
-
- ✓ Production Copy from ECC
- ✓ SUM/DMO upgrade to Sandbox 1809
- ✓ Install HANEYA
- ✓ Run Sample set Remediations
- ✓ Pilot Delta Transactions extracts

- ✓ Production copy
- ✓ Automation for S/4 Framework
 - Custom Code
 - ✓ SPAU/SPDD
 - ✓ DDIC elements
 - ✓ ATC/SLIN/SC errors
 - ✓ HANA DB
 - ✓ S/4 syntaxes
 - Process
 - Security Roles
 - Master Data
- ✓ Generate Transports for the above changes
- ✓ Unit testing

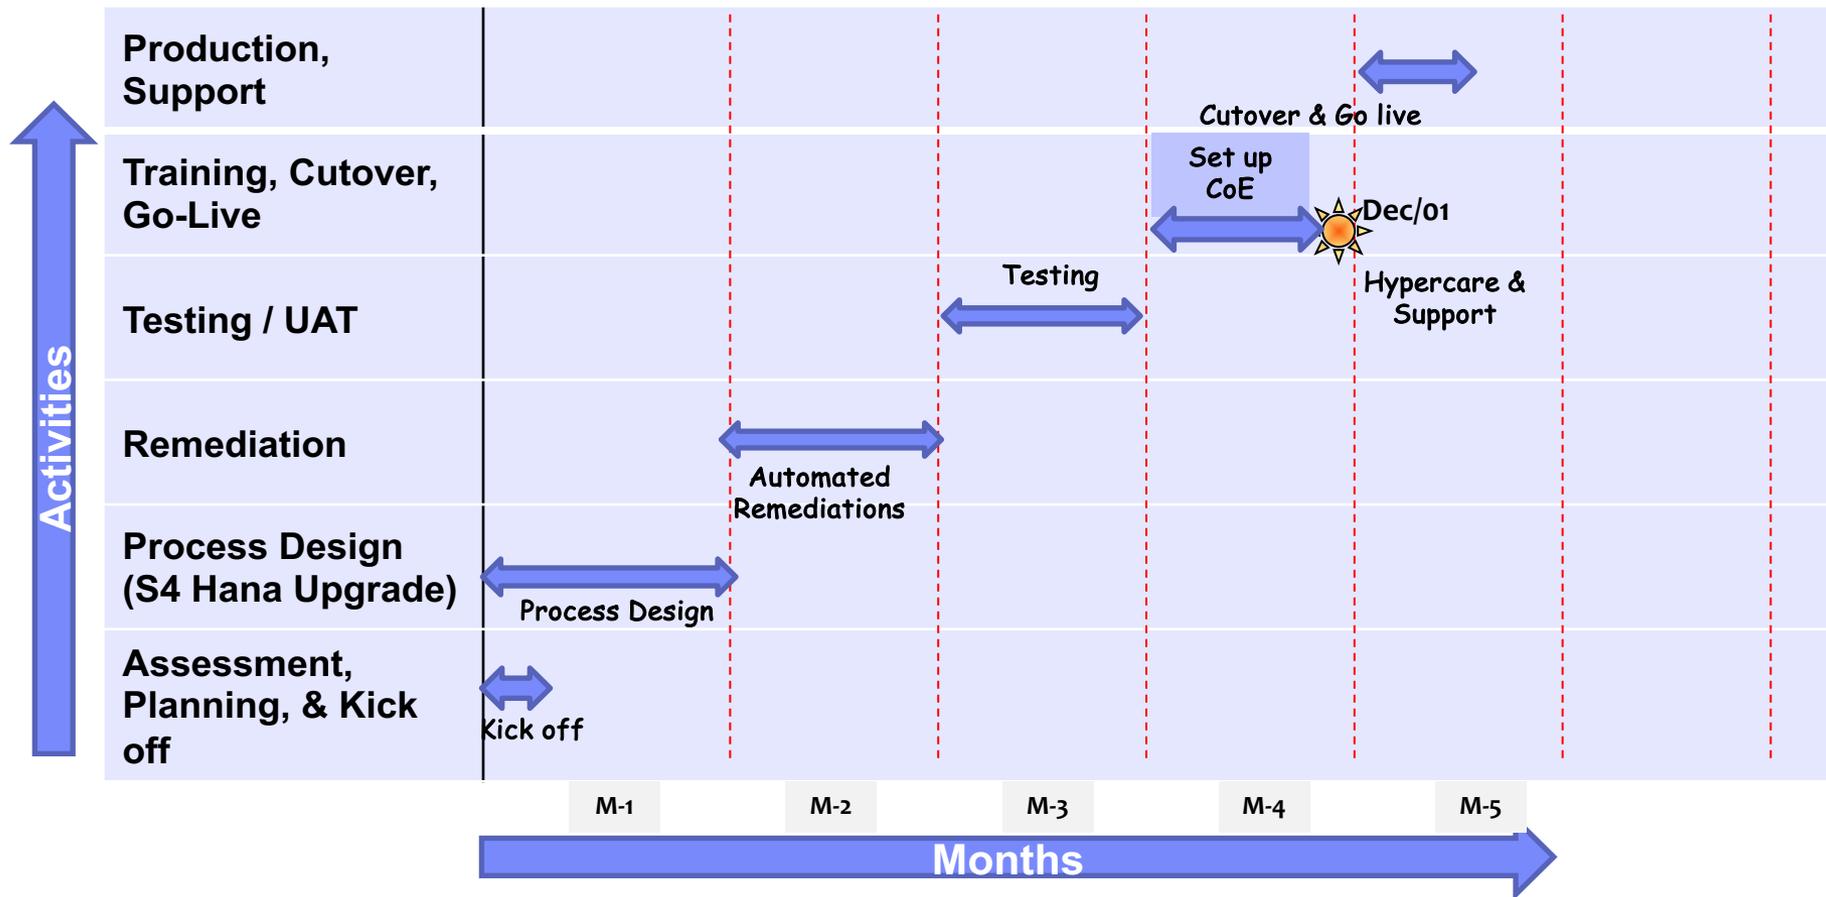

- ✓ Production Copy
- ✓ Security Roles unit Testing
- ✓ Integrated Testing
- ✓ Regression Testing
- ✓ Stress testing
- ✓ Incidents / Break/ Fix
- ✓ Changes made in Dev and Transported for retest

- ✓ Preprod Box is set up with 1809
- ✓ Copy of Production
- ✓ Cutover and Simulation
- ✓ Delta Extracts
- ✓ Business Verification
- ✓ User Acceptance Testing
- ✓ Training
- ✓ Incidents /Break/ Fix

- ✓ Business Verification
- ✓ End user Roles
- ✓ Hypercare
- ✓ CoE
- ✓ AMS

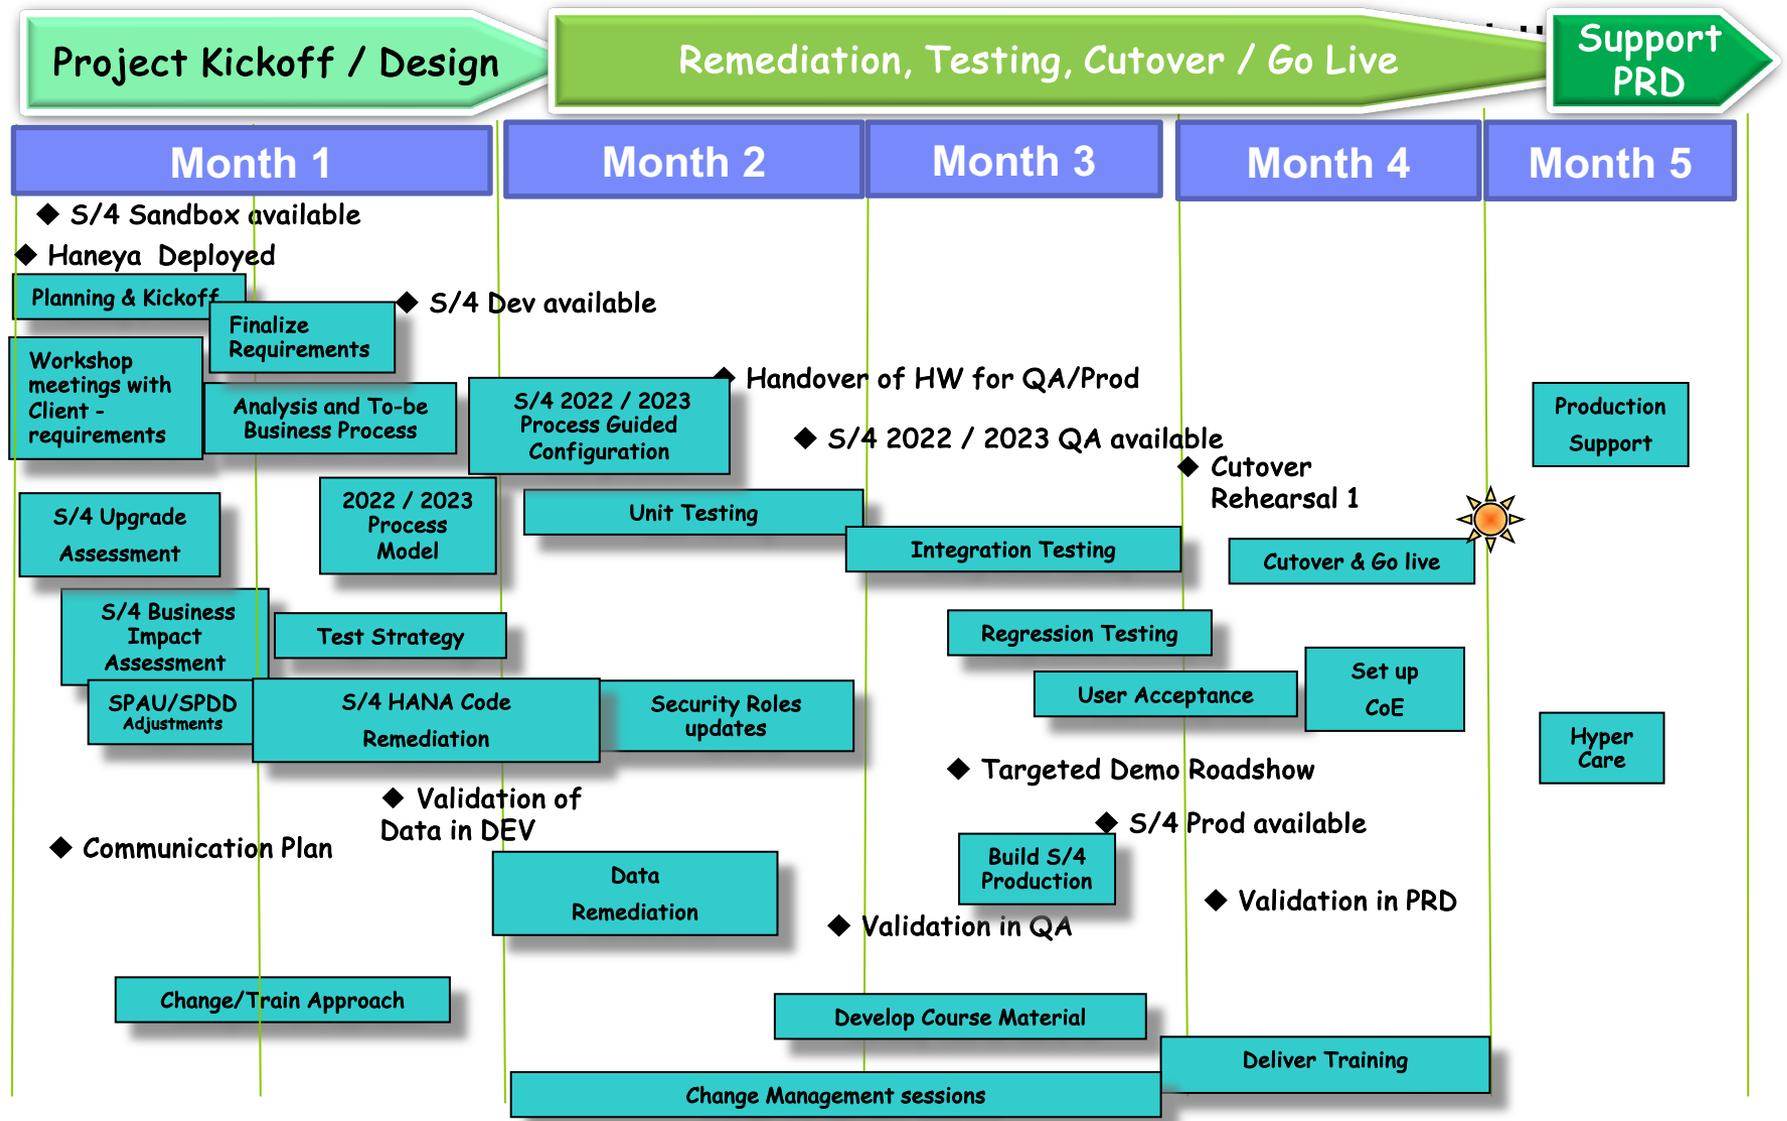

Migration Timeline from S/4 HANA – 5 Months

Note : Above timelines are indicative and will be made definitive once we get the sizing assessment done

Timeline with HANEYA® is 5 months for 2022/ 2033 Upgrade

Resource Estimate for S/4 HANA 2022 / 2023 Conversion

Resources								
			Kick off/ Design	Remediation	Testing	Cutover/live	Hypercare	
Role	FTE	Onsite/Offshore	M1	M2	M3	M4	M5	Total
Engagement Manager	1	Onsite	160	160	160	160	80	720
Haneyya Technical Architect	1	Offshore	160	160	160	160	80	720
HANEYA Process Architect	1	Onsite/Onshore	160	160	160	160	80	720
Total								

- Engagement Manager full time from Visionsoft and the client
- Haneyya Technical architect – Drives all technical remediations including security
- Haneyya Process architect – Drives Process Configuration and Data Remediations
- Based on business process scope, recommend functional SMEs part-time from the client for each process area (0.3 FTEs) – Vary by scope
- Basis resource from the client minimal time

Note : Above Resources are indicative and will be made definitive once we get the sizing assessment done

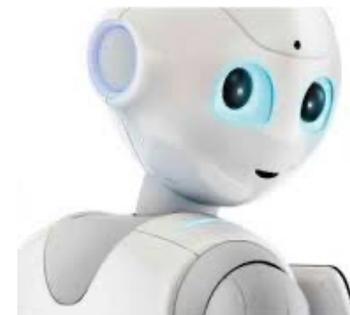

Agenda

- ❖ Corporate Overview
- ❖ S/4 HANA Move Challenges
- ❖ HANEYA® 4 S/4 HANA Move

❖ HANEYA® 4 Solution

- Custom Code Remediation
- Security Roles Cleansing & Update
- Data Cleansing, Carve out, Remediation, Replication and Mapping
- Configuration Workbench / Cockpit
- Zero Down Time (ZDT) Conversion
- Testing Automation

❖ Customer Success Stories

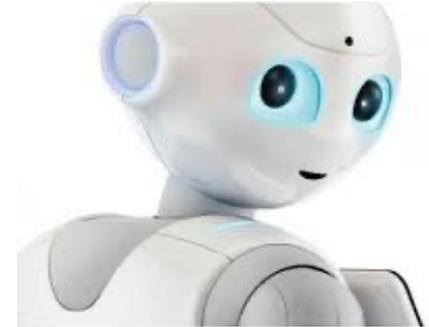

■ Haneya® Solution for S/4 HANA Migration

- HANEYA is a robotic S/4 Hanification solution that manages activities across all areas of the Migration

- HANEYA applies 3 steps to each area:
 - **Assesses** gaps requiring changes
 - **Remediates** gaps with recommended changes
 - **Applies** changes via Transports & Testing

- HANEYA® areas of solution:
 - Custom Code Remediation
 - Security Roles Cleansing & Update
 - Data Cleansing, Carve out, Remediation, Replication and Mapping
 - Configuration Workbench / Cockpit
 - Zero Down Time (ZDT) Conversion
 - Testing Automation

HANEYA® 5.0 is a robotic S/4 Hanification solution that manages activities across all areas of the enterprise –

Reduces the effort and time by 50% with Zero Down Time

HANEYA®
***Custom Code Remediation
and Security Roles
Updates***

S/4 HANA Custom Code Remediation

- HANEYA identifies conflicts as Error, Warning and Information Messages to perform upgrade from ECC Ehp(X) to S/4 HANA / Central Finance version – it will identify, segregate the conflicts and resolve them by object type
- Incompatibilities run by Process area and by each Module
- Provides incompatibilities report and updates the programs automatically. During assessment phase it generates effort estimation report
- Flexibility on what to automate vs manual resolutions
- 80% automation with 100% Accuracy
- Remediates obsolete statements, Data Models and Objects
- During migration/ upgrade, HANEYA will resolve these conflicts by replacing conflicting statements in programs, reports and interfaces with Ehp8 1809 / 2022 / 2023 compatible statements.
- Migrations available:
 - ECC to ECC, ECC to HANA , ECC to S/4 HANA
 - HANA to HANA, SoH to S/4 HANA
 - S/4 to S/4 HANA (1511 to 1809) 1610 to 1809, 1511
 - S/4 HANA, BW/4 HANA and MDG on HANA are supported
- Transports re generated for all changes for deployment
- Download and integrate with ALM for automated testing

1. **~100% Error Free and Risk Free**
2. **Code is compliant with ABAP on HANA and Eclipse**
3. **Reduce Custom Code effort effort by 80% (20% Manual effort)**
4. **Custom Code changes are documented for Audit Trail**
5. **Ongoing tool for custom code remediation for any newly introduced changes**

S/4 HANA Custom Code Remediation

Assessment

- Unicode Errors
- SPAU / SPDD Errors
- Custom Objects Evaluation
- Cust. Programs Conflicts
- Inactive Objects list
- Error Reports (SLIN)
- SCI errors
- HANA DB Incompatibility
- S/4 HANA incompatibilities
- Data Model(Master Data) Incompatibility

Remediation

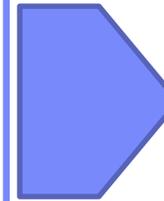

- Unicode Resolution
- SPAU&SPDD Automation
- Upgrade Conflicts (ATC/ SLIN)
- HANA DB Remediation(SCI)
- Obsolete Remediations
 - > Program Syntaxes
 - > Tables & Table Parameters
 - > Function Modules
 - > Classes and Methods
 - > Transaction Codes
 - > Data Elements & Domains
 - > Sub Screens
 - > Report Variants

Deploy

Requirements for ALM testing &
 Transports for deployment

Security Roles Cleansing & Authorizations Updates

- HANEYA will identify the conflicts for the Security Roles / Positions.
 - Standard and Custom Roles
 - Authorization profiles
 - Fiori Services
- Versions Covered:
 - ECC to ECC, ECC to HANA , ECC to S/4 HANA
 - HANA to HANA, SoH to S/4 HANA
 - S/4 to S/4 HANA (1511 to 1809) 1610 to 1809, 1511
 - S/4 HANA, BW/4 HANA and MDG on HANA are supported
- HANEYA will identify T-code changes and list output of T-codes for Security Role Updates
- During migration, HANEYA will make changes automatically to make the **Security Roles** compatible with S/4HANA 1809 system.
- HANEYA will identify and updates T-Codes automatically in the security roles for user **access provisioning**
- HANEYA will update all changed **Authorization** Profiles Automatically
- HANEYA will activate new **Fiori Services** for the new transaction codes, so latest Fiori screens are available for the end users

1. **Roles Cleansing**
2. **~100% Error Free and Risk Free**
3. **Incompatibilities – Standard & Custom Roles Update**
4. **Reduce Security Roles effort by 80%**
5. **100% ECC Security Roles are mapped to S/4 HANA Processes**
6. **Fiori Services activated for all New Transactions (Release 5.0)**
7. **100% Automation**

Security Roles Cleansing & Authorizations Updates

Assessment

- Standard Roles
- Custom Roles
- Evaluation
- Clean up of the roles

- Remove Duplications
- Pre-Post Quality Metrics

Map to S/4 HANA

S/4 Add-On HANEYA®

- Construct New Fields
- Map/automate changed fields
- Cleansing and Remediation
- Execute QA and Testing
- Pre-Post Quality Metrics

Six sigma Quality Data

- Identification of inconsistencies
- Data Audit based on Business rules
- Build Complex Business Rules– Scalable
- De - Duplication and Harmonization
- Produce Portfolio of Inconsistencies
- Review with Stakeholders and prioritize - 1,2 and 3 for remediation
- Data Cleansing and Corrections
- Map, Transform and Automate Data Models and make data compatible with S/4 HANA
- Perpetual runs to achieve six Sigma Quality levels

DAMG offers following MDM capabilities:

- 1) **Data Cleansing – One time Activity**

- 1) **An Excel Master Data(MD) Upload for Customers, Vendors and Materials**
 - 1) Material Numbers, Characteristics, and Validations etc.
 - 2) Name, PAN, Address, GSTN, Bank Details etc.
 - 3) Duplication Check, Semantic Recognition, Accuracy, Validness & Completeness
 - 4) Exception Processing

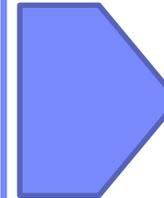

- II) **Staging Area processing for MD - Customers, Vendors and Materials**
 - 1) Requestor reviews all the records and ensure they are scrubbed / cleansed
 - 2) Initiates a request for approvals
 - 3) Reminders for approvals
 - 4) Monitors Rejections and Reprocess

- III) **Workflow with one or multiple approvers for approving the MD details before it gets created in system**
 - 1) Setting up Approval Hierarchy based on Material Type and Account Group
 - 2) Alternate Approvers & Delegate Approvers
 - 3) Approve the records to next level
 - 4) Reject the records to the requestor

- IV) **Audit Trails, Workflows, and Automatic Creation of MD in the SAP system**

Master Data Models – S/4 Mapping & Automation

- HANEYA will identify the inconsistencies based on the ECC Business rule set, presents the inconsistencies and automates remediation of inconsistencies.
 - Business Partners, Prices, Contracts, & Service Master
 - G/L, Profit center, Cost center, I/O, Assets and Banks
 - Vendors, Prices, Brokers, Lease Contracts, & Info Records
 - Cost Objects & Location Masters
- For S/4 Migration, HANEYA utilizes three methods:
 - Mass process , Errors remediation & Interactive update
 - Rules based automation
 - S/4 HANA Mapping & Transformation
- Automation: HANEYA will make changes automatically via Transform, Map and Automate) where the data sets are system driven i.e. known to the tool.
- HANEYA will identify the inconsistencies and list output of inconsistencies to Data Stewart via automation. In addition, Data Custodians can make changes and upload back to HANEYA
- HANEYA provides validation reports to make sure all entries are accurate and confirm the data is go-live ready

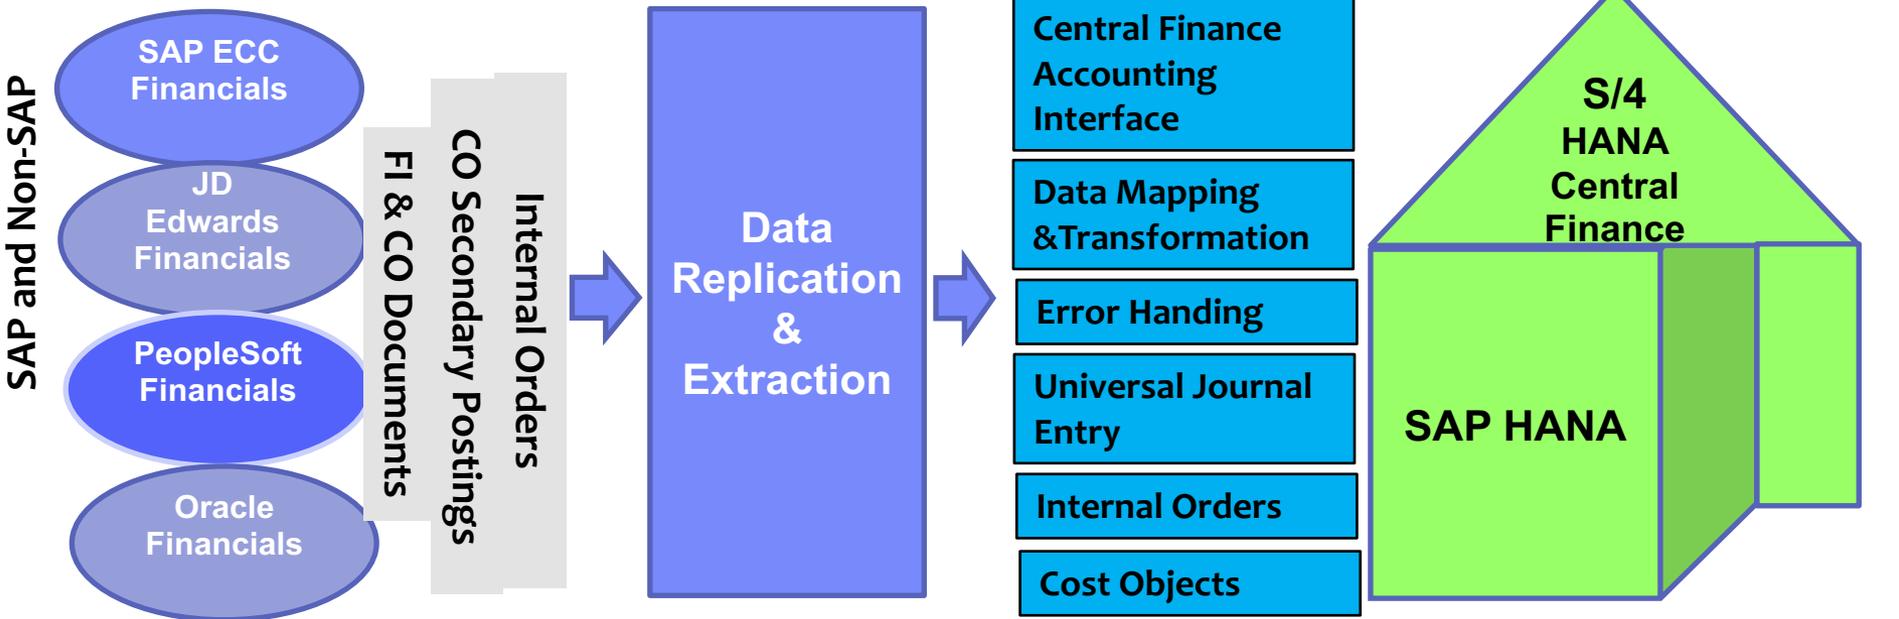

1. **~100% Error Free and Risk Free**
2. **Master Data Mapping, cleansing & Automation**
3. **Reduce Master Data effort by 60%**
4. **100% ECC Objects mapped to S/4 HANA Data Models**
5. **Ongoing Data Audit and Governance**
6. **Many to One mopping**
7. **~100% high quality**

Data Replication (Initial Load & Deltas) – A Client Case

SAP Harmonized Master Data and Data Governance

Data Cleansing

- ✓ Global View of Financials
- ✓ Harmonized Master Data
- ✓ Replicate Postings centrally
- ✓ Intercompany Re-conciliation
- ✓ Harmonized Financial Reporting
- ✓ Integrated Financial Planning

* Our understanding is based on our clients' process and systems. It will be confirmed during our discovery session ✓

Configuration Workbench / Cockpit

- 70+ processes have been either newly introduced or changed in S/4 HANA
 - BP integration - Asset Management - Cash Management
 - Order to Cash - Manufacturing - QM/PM – P2P – H2R
- By Business Process, Haneya identifies the Configuration changes and present a guided configuration screens for the functional analyst to enter the values from the Blueprint session. Haneya also helps with mass upload of the changes into Guided Configuration Screens
- As the values are entered, auto validation is conducted for dependencies and integrity of the Configuration data.
- Then, the values are distributed to multiple tables in the background and saved automatically. It automates integration across process areas.
- Transport request is generated for each Configuration Object, and it is utilized for change control and migration of changes to QA and PROD systems

1. **100% Error Free and Risk Free**
2. **Speed to Configuration**
3. **Reduce Configuration FTE by 60%**
4. **Automatic Configuration Documentation**
5. **Eliminates trouble of accessing SPRO – Massive changes were guided and executed by HANEYA**

HANEYA®

Zero Down Time Solution

HANEYA® ZDT Solution – switch to S/4 HANA in 4 Hours – Client Case

Solution Statement

Current - N Landscape

HANA Landscape

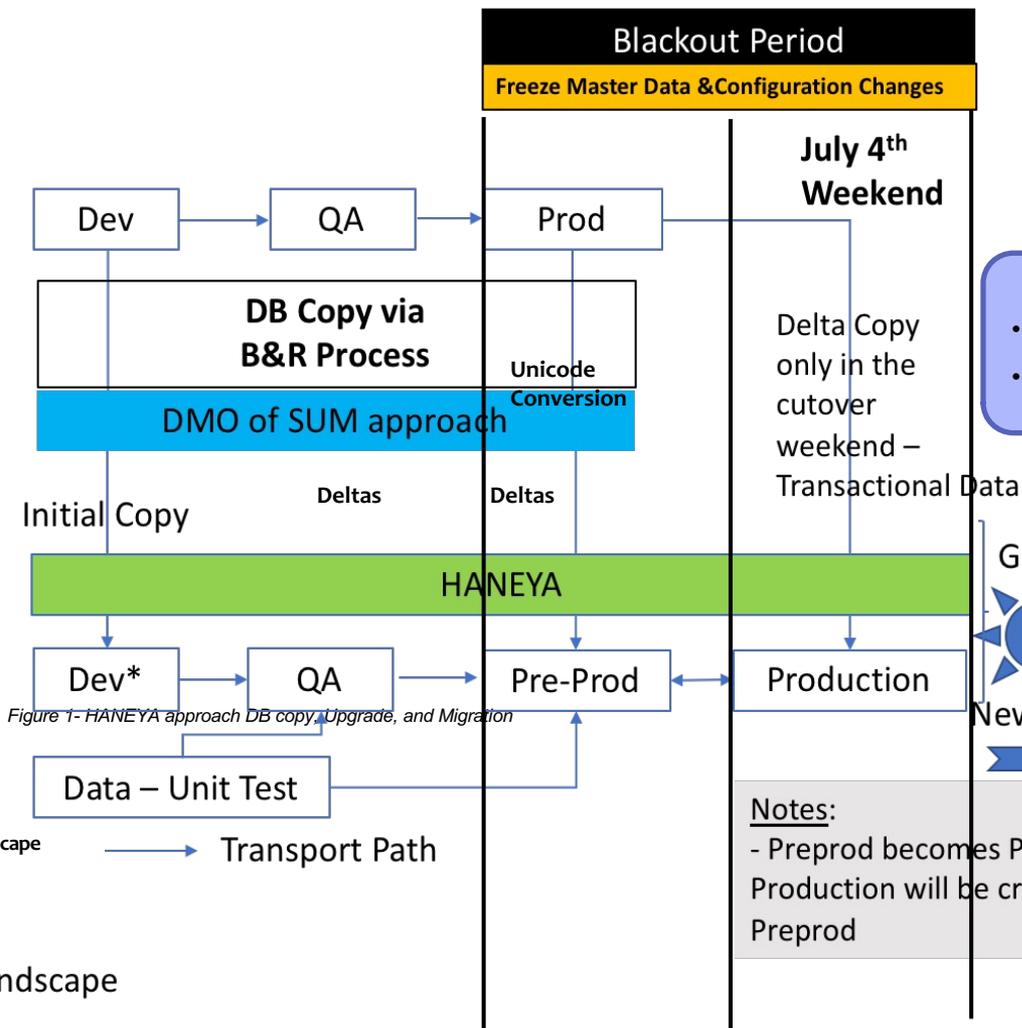

Figure 1- HANEYA approach DB copy, Upgrade, and Migration

*Pre-requisites:

- Unicode conversion by HANEYA
- SPAU/SPDD Adjustments
- Conflicts Remediation
- HANA and S/4 HANA incompatibilities
- Master Data Remediation
- Process Configurations

System Down Time

- Haneya – ZDT 4 hrs.
- Non-ZDT – Approx. 72 hrs.

New Production System
Ongoing Support

Notes:

- Preprod becomes Production system (or Production will be created with a copy of Preprod)

- N Landscape – Current Landscape
- HANA Landscape

			* Interfaces not required for Critical transactions in DR				

1) Three runs for ZDT Transactional Data conversion: A Dry Run (Mock run), a Pre-Production Run, and a Production run for the transactional data conversions using Haneya® ZDT approach.

2) During the Mock run, the transactions listed above will be run from ECC to S/4 HANA, validated, and timed for each transactional delta load. The transformational data mappings between ECC and S/4 HANA are automated and validated for 100% accuracy along with the timing for each transactional data object. Same recur in Pre-prod and Production landscapes

HANEYA® - Zero Downtime Approach – Demo Transactions

Order to Cash Transactions

- ✓ Advance Payments
- ✓ Sales orders
- ✓ Transport Carrier Req.
- ✓ Trip started
- ✓ Delivery
- ✓ Pick/Pack/Ship
- ✓ Post Goods Issue
- ✓ Trip Closure
- ✓ Billing
- ✓ Accounts Receivables

STOs to Delivery / Receipts

- ✓ Stock transport Orders
- ✓ Transport Carrier Req.
- ✓ Trip
- ✓ Delivery
- ✓ Pick/Pack/ship
- ✓ Goods Receipt
- ✓ Trip Closure
- ✓ Inter company Billing

Financial Transactions

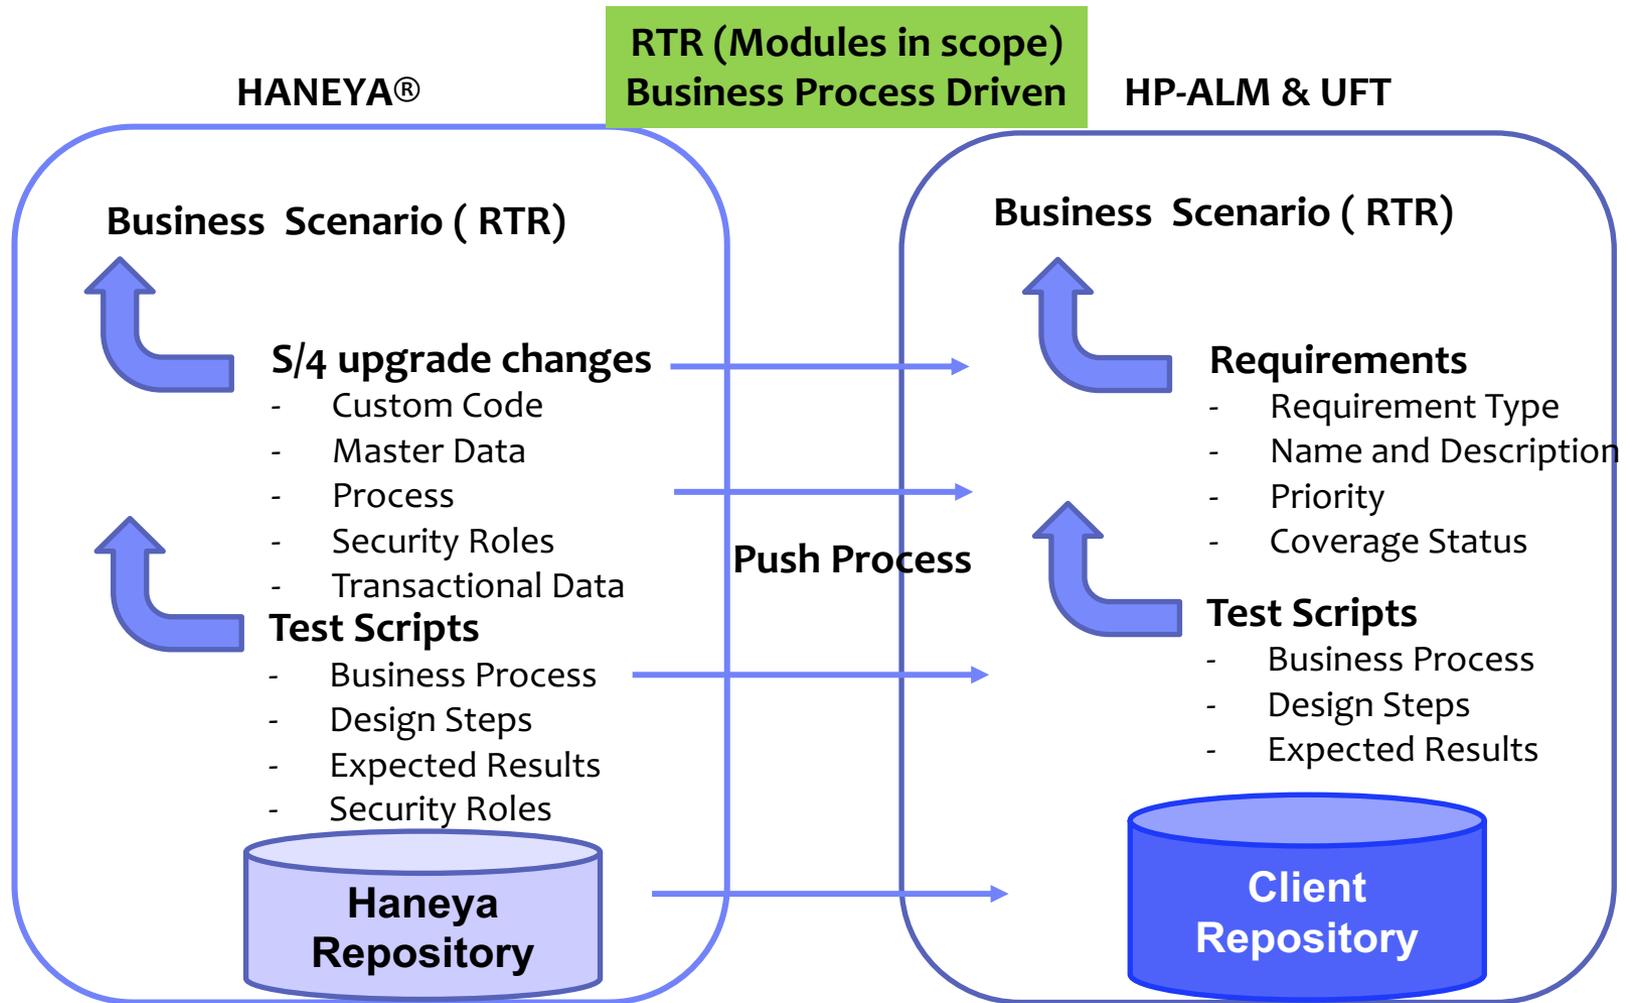

- ✓ G/I Balances
- ✓ Account Receivables
- ✓ Accounts Payables
- ✓ Asset Balances

HANEYA®

Testing Automation

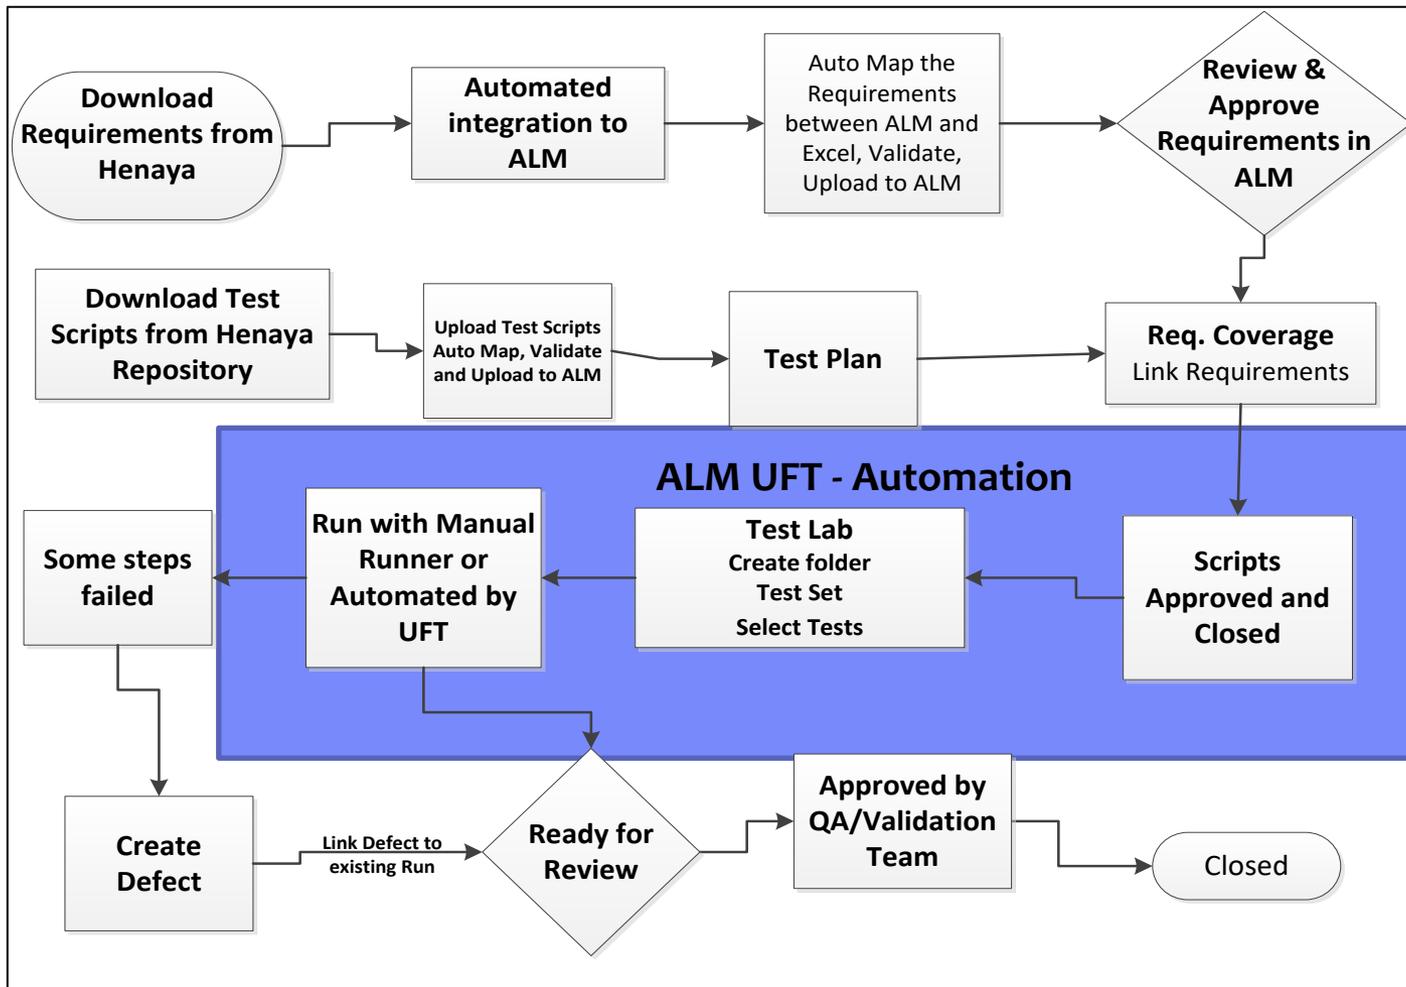

Haneya ® – Automate Requirements and Test Execution

We recommend HANEYA® and ALM tools for testing. The following is a mapping between HANEYA to ALM with an automation suite.

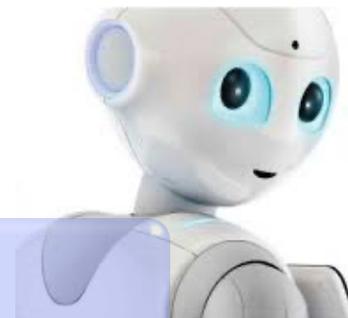

Haneya ® – Automate Requirements and Test Execution

We recommend HANEYA® and ALM tools for testing. The following is an integration between HANEYA® and ALM with an automation by UFT.

Agenda

- ❖ Corporate Overview
- ❖ S/4 HANA Move Challenges
- ❖ HANEYA® 4 S/4 HANA Move
- ❖ HANEYA® 4 Solution
 - Custom Code Remediation – taking ABAP code to Steampunk!
 - Security Roles Cleansing & Update
 - Data Cleansing, Carve out, Remediation, Replication and Mapping
 - Configuration Workbench / Cockpit
 - Zero Down Time (ZDT) Conversion
 - Testing Automation

❖ Customer Success Stories

HANEYA®

Client Cases

Client Testimonials

'Thanks again for the impressive demo. This would really help our customers to minimize the efforts during S/4HANA conversions.'

- Thomas Fiedler from SAP DE

'Haneya Tool with zero downtime is amazing for migration to S/4 HANA'

- Naga Vaitla, Pharma Company CIO

'Haneya is a comprehensive solution for S/4 HANA Migrations – Unicode Conversion, Zero Down Time, Custom code automation, Master data Mapping, Security Roles and Process automation.'

- J. Kiernan from SAP

'Haneya Tool is a robotic automation for Ehp7 upgrades and migration to S/4 HANA. It automates Custom Code and de-mystifies master data complexity. As a result, it cuts down 50% of the cost.'

- Ravi Chandra , Distribution Company CIO

Global Pharma – ECC > S/4 HANA 1709

Global Pharma/ Lifesciences

Project Description

Client is a strong player in API (Active Pharmaceutical Ingredients) and finished dosages. Its manufacturing plants have U.S. Food and Drug Administration approvals and World Health Organization approvals. It has marketing presence in over 100 countries.

Project Scope

- Migration from SoH to the target system S/4 HANA 1709
- Upgrade to Ehp7 and SoH – first step
- Implement S/4 HANA Enterprise Management

Sizing Info

- No. of users: 1500-2000
- No. of plants: 4
- Head office included

- SAP DB Size: 3 TB

Out of Scope

- HR Connectivity
- Enhanced request to service

Solution

Started with Ehp7 upgrade and SoH. Then, migrated from SoH to 1709

Team Size

Project implementation : 5 (including client resources)

Issues / Challenges faced

1. Custom Code Complexity
2. Master data Cleansing and Business verifications
3. FDA Validation / GMP / Quality Management

Value proposition

- ✓ Cost reduction by 60 % as compared to the estimates from an established SI
- ✓ Project completed in 6 months as compared to the projected timeline of 11 months by SI (45% reduction).
- ✓ over 80% of custom code remediated automatically, with about 20 % of manual code correction
- ✓ Tables, Transactions and Data mapped automatically

Global Industrial conglomerate: ZDT solution for Migration from ECC 5 to S/4 HANA (1809)

Project Description

The Client is a multinational industrial conglomerate with over \$4 billion in revenue. The Client chose HANEYA ® - Zero Down Time Service/ Solution as it enables minimum business disruption during the cut over. Of interest to the client was the dual approach - a combination of HANEYA® ZDT Solution along with SAP SUM / DMO®

Project Scope

Zero Downtime Solution with minimum business disruption while migrating from ECC (5) to S/4 HANA 1809 – objective is 4-5 Hours down time

Sizing Info

- Geographic Scope – Nigeria/ Africa
- No. of users: 2500
- No. of offices : 1
- Head office included – 1
- # of custom objects – 5000
- DB Size – 5TB

Solution

Zero Downtime Solution powered by Haneya for migration from ECC (5) to S/4 HANA 1809. Solution enables client to continue the business on ECC platform during the cutover and switch to S/4 with just 4 Hours downtime. .

Team Size

Visionsoft 2 members (1 ZDT consultant and 1 Data Consultant)

Issues / Challenges faced

- Huge Volumes of Data
- Business Downtime Complexity
- Unique Business Processes (TMS)

Value proposition

- A business disruption of just 4 hrs while the pointers are switched over from ECC to S/4 HANA (1809) in production at go-live.
- Risk Free Migration with Roll Back functionality
- Zero impact to its clients during the migration

Global Consumer Company – SAP ECC > S/4 HANA 1809

Consumer Products Company

Project Description	A major American an online grocer that delivers to residences and offices in the New York City metropolitan area.
Project Scope	Migration from ECC to 1809
Sizing Info	<ul style="list-style-type: none"> ▪ Custom Objects : 5000 ▪ Security Roles : 200 ▪ Custom tables/ cloned objects/ custom enhancements : 300 ▪ No. of users: 1000 ▪ SAP DB Size: 11 TB
Solution	Ehp7 upgrade followed by migration to 1809
Team Size	Project implementation team : 5
Issues / Challenges faced	<ol style="list-style-type: none"> 1. Securing leadership approvals took multiple sessions 2. Availability of SMEs during the impact assessment phase was a major challenge 3. Inducting the FICO functional specialist took time 4. Custom Code Complexity 5. Master data Cleansing and Business verifications
Value proposition	<ul style="list-style-type: none"> ✓ Cost reduction by 60 % as compared to the estimates from an established SI ✓ Project completed in 7 months as compared to the projected timeline of 15 months by SI ✓ Over 80% of custom code remediated automatically, with about 20 % of manual code correction ✓ Accurate and seamless Migration on Time

Global Chemical Company - S/4 HANA 1610 > S/4 HANA 1809

Global Chemical Company

Project Description	Client is a leading electronic materials company providing high-purity chemicals and gases, delivery systems, services and materials expertise. Client upgrades from S/4 HANA 1610 to 1809 leveraging the new functionalities in S/4 HANA including Digitization and IOT opportunities.	
Project Scope	Upgrade from S/4 HANA 1610 to 1809	
Sizing Info	<ul style="list-style-type: none"> ✓ Geographic Scope – USA ✓ No. of users: 300 ✓ No. of plants: 3 	<ul style="list-style-type: none"> ✓ Head office included – 1 ✓ # of custom objects – 5000
Solution	1610 Greenfield implementation followed by migration to 1809	
Team Size	<ul style="list-style-type: none"> ▪ Project implementation : 3 – HANEYA ▪ Client team – SMEs as required 	
Issues / Challenges faced	<ul style="list-style-type: none"> - Process Complexity - Data Cleansing and Scrubbing 	
Value proposition	<ul style="list-style-type: none"> ✓ Reduces the effort and cost by 60-65% ✓ FTE hours Savings ✓ Code remediation (Objects remediation) ✓ Process Remediation ✓ Master Data Remediation 	<ul style="list-style-type: none"> ✓ Automate T Codes replacement ✓ Automate Security ✓ Automate Process Configuration ✓ DB Conversion w/ Zero down time (ZDT) ✓ 100% error free data

Global Retail Company - S/4 HANA 1503 > S/4 HANA 1809

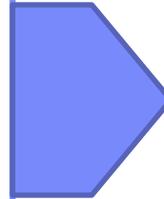

Global Retail Company

Project Description	A major American designer and marketer of children's apparel. Customer has a critical timeline to Go-Live By Dec 2019
Project Scope	Migration from S/4 (Finance) 1503 to 1809
Sizing Info	<ul style="list-style-type: none"> ▪ Custom Objects : 1331 ▪ Security Roles : 84 ▪ Custom tables/ cloned objects/ custom enhancements : 187 ▪ No. of users: 220 ▪ SAP DB Size: 1 TB
Solution	Greenfield implementation followed by migration to 1809
Team Size	Project implementation : 5
Issues / Challenges faced	<ul style="list-style-type: none"> ▪ Securing leadership approvals took multiple sessions ▪ Availability of SMEs during the impact assessment phase was a major challenge ▪ Inducting the FICO functional specialist took time
Value proposition	<ul style="list-style-type: none"> ✓ Project timeline of 13 months projected by the current Service provider will be completed in 5.5 months ✓ In-flight project

Global Publishing Group

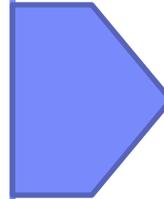

Project Description	A global publishing company with over \$3 Billion revenue in the business of selling and publishing books, Learning, Science, and Education
Project Scope	Technical Upgrade from SAP S/4 1511 to 1809 Modules: Finance & BPC
Sizing Info	<ul style="list-style-type: none"> ▪ Custom Objects: 3000 ▪ Custom tables/ cloned objects/ custom enhancements: 1000 ▪ Security Roles: 100 ▪ No. of users: 1000 ▪ SAP DB Size: 2 TB
Solution	Haneyya integrated with HP ALM solution deployed for automated upgrade from 1511 to 1809.
Team Size	Executed by client team of 4 (1 Basis, 1 ABAP, 1 tester and 1 PM) with SME support and guidance from Visionsoft
Issues / Challenges faced	<ul style="list-style-type: none"> ▪ Alignment on Testing Process & Tool ▪ Competing Priorities ▪ Custom Code and BW Complexity
Value proposition	<ul style="list-style-type: none"> ▪ Project timeline of (5 Months) budgeted by Client, was proposed for 9 months w/o HANEYA ▪ HANEYA Custom Code Corrections automatically ▪ HANEYA Process Guided Configuration automation for Finance and BPC modules ▪ HANEYA automation for security Roles updates ▪ ALM integrated solution with a ready repository of test scripts (industry best practices) expected to accelerate testing and ensure a quality upgrade In-flight project

- Custom Code Complexity and Incompatibility between ECC and S/4 HANA
 - Custom Code will not work in S/4
 - Functional Modules have been obsolete
 - Tables have been obsolete
- Business Partner(BP) Transformation and Mapping
 - Gaps with the CVI process - Credit Risk Account Number is different in HANA
 - Mapping Customers and Vendors to one BP Account# is not accurate
 - Consolidation doesn't work: Customers with same address come in as two different BPs
- G/L account issues during DMO transfer
 - Secondary Element Category is blank when it transfers to S/4 HANA
 - Some G/L elements don't get transferred
- Master Data is inaccurate
 - Data is not ready for S/4 HANA Migration
 - Data contains issues and errors
 - Data is redundant

**HANEYA®
Automated
Solution**

- ECC Security roles don't work in S/4 HANA
 - Custom Code will not work in S/4
 - Functional Modules have been obsolete
 - Tables have been obsolete
- Process Transformation & Configuration
 - SAP doesn't have automated identification of Processes changed / added
 - Configuration needed to be identified manually
 - Impacted processes to be added manually
 - Impacted Configuration is manual conducted – finding a needle in the haystack!
- Data Carve out is NOT possible
 - Section of data can't be replicated to S/4 HANA
 - High quality data can't be differentiated from unproductive data
- Zero down time is not feasible
 - During the cutover, ~Zero Down Time is not accomplished. It takes 72 hours system down time.
 - Business can't afford down time of 72 hours

**HANEYA®
Automated
Solution**

VALUE PROPOSITION & MERITS

Speed

Automates upgrades and migration with
100% Hanification

Saving

Saves 40 cents to a Dollar, with ZDT

Quality

100% accuracy with 80% automation

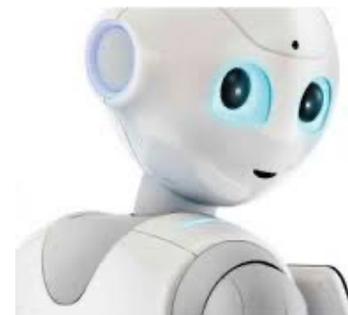

Safety

Product Governance framework enables
review prior to remediation
